Objectives: The class aims to introduce Chinese language to Kindergarten Children. The emphasis will be on conversations. The students will be practicing conversations in teams. We will start with 40 of the most basic characters, then move on to 40 of the most commonly used words, and finally onto 40 common phrases. I will incorporate flash cards, illustrations, songs and games in addition to the textbook in order to make this a fun and special experience for everyone. I look forward to meeting and working with the children as well as the parents.
